

Open Letter to ABS Board of Directors from Dr. Krishnan Suthanthiran, Founder/President of TeamBest Global Companies

May 22, 2023 – Dr. Krishnan Suthanthiran, Founder/President of Best Cure Foundation, Brachytherapy Research and Educational Foundation and TeamBest Global Companies, launched his Global Healthcare Delivery System using a Hub-and-Spoke model of express and mobile clinics, linked to general and multi-specialty medical centers, connected to 2-6 star apartment hotels. Best Cure Global Healthcare System is comprised of: (1) Best Cure Health System (non-profit), (2) Best Cure Insurance (non-profit), (3) Best Cure Clinical Research Institute (non-profit), (4) Best Medical Real Estate Investment Trust (for profit public company), (5) Best Medical Capital (for profit public company) and (6) TBG companies (for profit public company).

He began his career 51 years ago in July of 1972 as an engineer/physicist, working under the late Dr. Ulrich K. Henschke at then Freedmen’s Hospital (now Howard University Hospital) in Washington, DC.

Dr. Suthanthiran has been associated with many renowned radiation oncologists over the course of his career. The first annual ASTRO meeting he attended was in 1976 at the Hyatt Regency Hotel in Atlanta, Georgia (known as the American Society of Therapeutic Radiology and Oncology at that time) and this was also the first year commercial/technical exhibits were part of the ASTRO Annual Meeting.

Dr. Suthanthiran with Dr. Ulrich K. Henschke, attended and presented a poster at the Radiological Society of North America Annual Conference at the Palmer House Hilton in 1972—the attendance then was 2000 and has now grown to more than 50,000 at annual meetings of RSNA. It was also his first visit to the Windy City of Chicago and his first airline flight in the US on United Airlines.

Best Medical International (BMI) and Dr. Suthanthiran are founding members of American Brachytherapy Society (ABS)—founding organizers, supporters, sponsors and advertisers in the Brachytherapy Journal. The very first ABS (known then as the Endocurietherapy Society) Meeting was held in February 1977 at the Hyatt Regency Hotel in San Francisco, California.

BMI has sponsored the Henschke Memorial Lecture at the ABS Annual Meeting from its inception. The ABS Board selects the speaker for the Memorial Lecture. The 2023 ABS Annual Meeting takes place in Vancouver, BC, Canada from June 22-24, 2023 and Dr. Suthanthiran hopes to give the Henschke Memorial Lecture—a one hour presentation entitled, “Future of Brachytherapy, External Beam Teletherapy, Flash Therapy, Particle Therapy, Theranostics and Imaging” at the ABS 2023 Annual Conference in Vancouver, BC Canada.

After exhibiting/attending PTCOG 2023 in Madrid, Spain (June 11-17, 2023) and ISBT 2023 in Gothenburg, Sweden (June 17-21, 2023), Dr. Suthanthiran will arrive in Vancouver, BC, Canada and attend two days only (June 22-23) of the ABS 2023 Annual Meeting. He then flies to Chicago and will participate at the Best Cyclotron Systems, Inc. exhibit at the Society of Nuclear Medicine and Molecular Imaging (SNMMI) Conference 2023 and the Indo American Society of Nuclear Medicine (IASNM) Annual Conference from June 24-27, 2023.

Dr. Suthanthiran takes this opportunity to thank all those who have supported him and his enterprises over the past 50 plus years. He named his company Best as he wants to be the Best in whatever he does.
